

SK6211 Linux User Manual

Rev: 1.0

Date:2008/02/25

● X-Window :

1. Plug-in the UFD in USB port.
2. UFD should appear in the Desktop.

PS: If UFD doesn't appear in Desktop , open a terminal and use text mode commands to mount UFDs.

● Text mode :

1. Plug-in the UFD in USB port.
2. command with "cd /dev/ ", check there are sda1,sda2,..... or sdb1,sb2etc.
3. We assume our UFD is sda1,
4. command with "mkdir /mnt/usb".
5. command with "mount -t auto /dev/sda1 /mnt/usb" (Mounting UFD)
6. command with "df -Th" , check we mount successful in "mnt/usb".
7. command with "cd /mnt/usb" , check R/W function work.
